2.3 Members of the Developers Committee

The NEMO Developers Committee will comprise the Executive Board, External Experts, Consortium Experts System Team members, and leaders of Working groups (see below for details on membership of each group). It will meet for two days comprising two phases: day 1 for discussion with all members, and day 2 with the Executive Board, the External and Consortium Experts only. See “Developer’s Committee Terms of Reference and Membership document” for more details.

The Executive Board

The Executive Board is made up of the NEMO Project Manager, NEMO Scientific Leader and a NEMO System Team Officer from each consortium member. For 2014 these will be:

<i>Role</i>	<i>Name</i>	<i>Institute</i>
NEMO Project Manager	Claire Lévy	CNRS LOCEAN
NEMO Scientific Leader	Gurvan Madec	CNRS LOCEAN/NOC
NEMO System Team Officer	Andrew Coward	NOC

NEMO System Team Officer	Simona Flavoni	CNRS LOCEAN
NEMO System Team Officer	Emanuela Clementi	INGV
NEMO System Team Officer	Dorotea Iovino	CMCC

External Experts

The External Experts should be chosen as scientists who, in particular, are able to give advice on research plans and who can co-ordinate developments of NEMO outside the NEMO System Team.

The external experts have two roles, to provide expert advice and to represent the broader community in their expert area. It is important that they are able to make recommendations and give advice that represents the community at large, and it is expected that they will have consulted within their community regarding the priority of activities for NEMO before the meeting. For 2011 the external experts will be:

<i>Expert area</i>	<i>Name</i>	<i>Institute</i>
Ocean dynamics	David Marshall	Univ Oxford
Sea-ice	Thierry Fichefet	UCL Belgium
Biogeochemistry	Olivier Aumont	LOCEAN France
Regional modelling	Frédéric Dupont	DFO-MPO Canada
Shelf modelling	Jason Holt	NOC GB

High resolution configuration	Jean-Marc Molines	CNRS France

Consortium Experts

Each consortium member can propose experts from their institute to complement the group (with a maximum of 2 per institute). These "consortium experts" are chosen to cover the different fields of expertise required by NEMO, and with the appropriate level of responsibility to enable decisions to be made.

<i>Name</i>	<i>Institute</i>
